Q2 In general, how would you rate the quantity and quality of the existing inventory of parks, recreation, open spaces, and trails provided in Everett by the city, school districts, county, port, state, and all other public agencies?

Answered: 867 Skipped: 4

	Lowest	Low	Moderate	High	Highest	Total
Quantity - the number and size of existing park and trail sites to serve the existing population	2% 14	10% 84	48% 417	36% 313	4% 39	867
Location - the location of existing parks and trails in relation to your neighborhood	3% 24	12% 98	38% 312	38% 312	9% 78	824
Quality - the physical condition of park furnishings including parking, restrooms, trails, courts, fields, and picnic shelters	3% 23	17% 143	46% 398	30% 256	5% 41	861

Q3 By the year 2035, the Everett population is expected to increase by another 28,000 people or by 27%. In your opinion, will existing park and recreation facilities currently provided by all agencies in Everett be sufficient to provide for this population increase?

Answered: 866 Skipped: 5

	No	Yes	Don't know	Total
Will existing park and recreation facilities be enough to provide for this population increase?	69% 598	10% 87	21% 181	866

Q4 WATERFRONTS - under the proposed plan, the city would expand existing access to waterfronts (existing waterfront access shown in the green circles on the preceding concept graphic) and develop trailhead, trail, and a railroad overpass to the tidelands outcrop knoll located at the north end of Merrill & Ring Creek (shown in yellow circle number 10). How would you rate this proposal?

Answered: 853 Skipped: 18

	Lowest	Low	Moderate	High	Highest	Total

**Q12 AQUATIC, ARTS, YOUTH, SENIOR, SOCIAL CENTERS - under the proposed plan, the city would upgrade the swimming pool and consolidate all recreation and community buildings at Forest Park (shown in the yellow circle number 1 on the preceding concept graphic). The city would also develop a new recreation and community center in south Everett probably at Walter E Hall Park (shown in yellow circle number 21 on the preceding concept graphic) to compliment the wide variety of other public, nonprofit, and for-profit facilities in Everett (shown in the green circles - the YMCA's proposed new facility is shown in the yellow circle number 2).
How would you rate this proposal?**

Q13 SPECIAL EVENTS - various organizations host special events throughout the year. The city supports these activities by providing security, equipment set-up and take-down, trash and site cleanup, and a number of other services which are costly. The city could use a weighted scale to determine how to support each event considering: 1) the extent of benefit to the public-at-large, 2) the percent of participants and spectators who are local residents, 3) the economic stimulus of the event on local businesses, and other factors. To what extent would you support this policy approach?

Q14 The existing inventory of Everett open spaces, trails, parks, and recreation facilities is estimated to be worth \$4,944 per an average single family house. This amount is approximately what it would cost to add additional park facilities for each newly developed single family house if the city is to maintain the same standards in the future for park, recreation, and open space facilities that the city is currently providing existing residents. Based on this information, how would you rate the following methods for dealing with the impact of new residential development in Everett on park acquisition and development including the proposals outlined in the preceding questions?

Q15 If a park growth impact fee were to be charged developers of new residential construction, what percent or amount of the \$4,944 park value or cost per new single family house would you recommend be charged? Note - any amount that is less than 100% that is charged the developer of a new single family house will have to be financed with other city funds.

Q16 Growth impact fees cannot be used to add or improve park facilities for existing residents - or for maintenance or operational needs. Additional funds will ultimately be necessary to meet Everett's projected park and recreation requirements. Given this fact, how would you rate the following possible methods for financing some of Everett's park and recreation facility acquisition, development, maintenance, and operational needs - all of which require voter approval?

Q18 METROPOLITAN PARK DISTRICT (MPD) - as an option, City Council could place a referendum on the ballot for voter approval (50% +1 needed for approval) authorizing the creation of a Metropolitan Park District to coincide with Everett city limits. An MPD is a separate junior taxing district able to levy a dedicated property tax up to \$0.75 per \$1,000 value (\$75 per \$100,000 value) dedicated exclusively to the acquisition, development, maintenance, and operation of park and recreation programs and facilities. How would you rate this option for providing a dedicated source of funds?

1	New development must absorb costs for new parks. Developers have received a blank check for developing in Everett and the county without any responsibility to Parks and state highways.	3/24/2016 9:30 AM
2	Japanese Gulch, specifically, could have been mentioned. There is a lot of traffic that uses and maintains the Gulch. However, maybe this isn't the best medium for it.	3/23/2016 9:28 PM
3	I would like to see recycle bins in every park so we can recycle aluminum cans at least - preferably paper and plastic too, but at least aluminum.	3/23/2016 9:25 PM
4	pedestrian bridge at Pigeon Creek 1 needs to be built. Its in previous master plan	3/23/2016 5:19 PM
5	How much of a role do Everett's park resources and amenities play in making Everett a good place to live? Rate: VERY HIGH! If "things Everett has to offer residents and visitors" were ranked. Parks would be at the top of the list. This is a vital thing to understand for its impact on planning a city with good work options (currently terribly weak in Everett) and amenities attracting people with means and social responsibility.	3/23/2016 11:14 AM
6	No.	3/23/2016 1:07 AM
7	Yes ask the public to volunteer to help maintain trails etc in the Parks and Recreation. This is our community we should be more involved in caring for our community. This will motive people to look less at screens and look more at there what is going on around them and meet new people.	3/22/2016 7:55 PM
8	Stop wasting our TAX dollars..... We are fed up.....you can't keep raising our property taxes so an inept City Government with 3000 city employees running around the city. Time to terminate employees and stop spending. No more pipe dreams please.....	3/22/2016 5:31 PM
9	More safe clean and well lit walking paths would be wonderful. Better routes for bikers so that they are off of the main roads but still have safe and direct routes for commuting.	3/22/2016 4:22 PM
10	The existing parks need to be cared for before future parks are created. It will be hard to ask for money when the current parks are run down (excessive moss and slippery structure, crumbling concrete, overgrown trees last I visited any). More parks will just add to the burden of care. Don't forget to examine parking. More is better in this case. If one family has a park birthday, then forget anyone else finding a spot.	3/22/2016 3:37 PM
11	none	3/22/2016 2:14 PM
12	Very interested in more bike trails that connect to other city/county trails that are SAFE.	3/22/2016 1:20 PM
13	The main thing for me is to not 'borrow' money to do anything. None of the parks or programs are 'needed'. They are nice to have, but when it comes right down to paying for them, if we can't afford them then we can't have them. Example, I loved that the city stopped paying for a lifeguard at silverlake. It's an ill-afforded fee. Nice to have, but far from necessary. Especially when silly rules are added for the lifeguards benefit.	3/22/2016 12:27 PM
14	I have used most of the big parks and receive programs they have been great the facilities as is are nice I love forest park howarth park mukilteo legion and thOrton a sullivan. Some of the neighborhood parks don't seem to really get used I'm not sure if it's because there's not many children or parents don't have time to take or watch children or why they aren't being used. You could bring in income plus give teenagers jobs by opening a little snack shack at thOrton a Sullivan tons of people picnic there and there's an ice cream truck idk if he pays a land use fee but the park could be making some income if they sold ice cream coffee fresh fruit smoothies snacks bbq materials swim diapers sand toys	3/22/2016 11:26 AM
15	I recently visited South Korea on vacation and I was impressed with their public parks. Most parks I saw had fitness equipment machines that anyone could use. I would like to see something like that implemented here if feasible.	3/22/2016 9:31 AM
16	Questions 19 and 20 might give better feedback if there were a n/a option. Or maybe I might not be interrupting them properly.	3/21/2016 10:08 PM
17	a bathroom facility in Everett. like the town of Snohomish has on first st. I have not been there for a while, but they use to have a community bathroom. also there is a corner part of the sidewalk on east marine view drive that is sticking out into the street, I feel that is a safety hazard.	3/21/2016 9:10 PM

18	Re. question 8--adding more parks in underserved neighborhoods sounds great, but I'm not sure the locations chosen are the best ones for that goal.	3/21/2016 8:53 PM
19	A off-road biking trail along Broadway could be useful.	3/21/2016 6:37 PM
20	Can the park district be contiguous with the school district - lots of potential to share facilities and expense.	3/21/2016 3:29 PM
21	Maintenance of existing city parks needs to be addressed first. No new parks unless new funding is found. We can not keep stripping the existing parks of their maintenance dollars just to build a new park.	3/21/2016 9:18 AM

There is land which has been unused for years on Rockefeller and 30th or 31st that would be a great community garden space for seniors. The downtown district should require that more businesses include landscaping via planters, instead of the planters being used for cigarette disposals.	3/20/2016 1:11 PM

Also, it seems there would be long-term value in hiring more Rangers/security and having more frequent presence at the parks, and/or posting Rangers at the larger parks and those with known to have frequent vandalism/drug/violence issues. One of the saddest parts of our parks is not the accessibility or availability, but the frequent damage, filth/trash, and safety concerns.	3/19/2016 12:09 PM

I'd prefer to see more usage and better usage of existing land resource before adding more parks, with the exception of adding waterfront access. Can we work with school districts to offer more sports and athletic activities, if their facility is not up to the capacity? Don't use parks for that purpose when schools have already built such facilities, for example. I think it's cheaper to rent facilities from schools than to build new ones.	3/14/2016 6:23 PM

111	You did not address how much money is being currently spent on Parks and Recreations Facilities. It does not address how much each home is currently charged in taxes each year. People need to know this pertinent data before one can comment on any future proposals. It does not address the hundreds of thousands of dollars being spent to subsidize Legion Golf Course, Walter E Hall, and Forest Park Pool. Forest Park Pool has never ever come near turning a profit. Someone needs to ask why? The answer is a plain as the nose on your face.	3/14/2016 1:27 PM

113	We love visiting Everett's parks with our family and would especially like to see better beach access and a new swim facility!	3/14/2016 12:15 PM
114	Our access to the waterfront is so limited - even more so that we have to pay to park in Mukilteo even during off-peak hours. If we develop waterfront access, I want Everett residents to be assured that they will have first priority access. As our city grows, much of the focus seems to be on multi-family housing (which disappointingly to me, the mayor seems to support) - it is important to me that developers of these massive complexes have to help pay for our parks. The closest park for me with a playground is about a 15 minute walk - with a short cut through the dog park. While I'm okay with this, this walk is inaccessible to people with strollers. Without the short cut, the walk is too far. The next closest park is about a 25 minute walk. This is a long walk with small children. I believe in a city, we should be able to walk to a park. All of my friends in North Everett are able to walk to a park in 10 minutes or less. As South Everett grows, we need to be very conscious and proactive about development of our parks. I like the idea of the park north of Walmart, but I can't tell from the map exactly where it will be. I will not go to a park close to Walmart because I feel like the store attracts some people I don't want my child around. Additionally, I won't cross 112th going south to go to a park. That road is too wide and people drive too fast. It just isn't safe for children to cross. I am concerned that your survey won't reach many of the people in South Everett and we will be under represented. I understand that voter participation is low in the area I live - perhaps that is because of mobility rate of the multi-family complexes. Effort should be made to get a fair representation in your survey from South Everett.	3/14/2016 11:45 AM

118	the only reservation that I have is the provision of adequate security. We walk our dog daily and have many times come in contact with drug-associate equipment on the grounds, people under the influence of substances, evidence that make us uncomfortable with using trails and park facilities, at all times of the day. 138	The survey lumped together Forest Park building consolidation and pool upgrade/repair. I only support the pool portion of this (question 12). I would need more info on plan/costs before I could support the non-pool building portion of this question. Don't delay on fixing the Howarth Park bridge, and in conjunction, erect a secure fence to keep dogs/people off the railroad tracks (off leash dog area is problematic in current arrangement without a fence to keep the dogs off the tracks), and encourage picnickers to not picnic in the off leash dog area.	3/13/2016 4:42 PM
139	In case it wasn't clear in my responses, expansion and/or maintenance of parks/recreation should be developed by charging builders and maintained with current and future resources. 142	An idea regarding partnership questions (#22 & #23). A new partnership between Everett Parks, the Everett Rowing Association, and the YMCA of Snohomish County to increase access to, participation in, and affordability of, the sport of rowing in Everett. It could work like this. Everett Parks provides for land in or near the Lowell Riverfront Trail / Rotary Park and construction of a modern boathouse with boat storage, locker rooms, a heated fitness room, and ample ramp and dock space. The Everett Rowing Association provides equipment (boats, motor launches, safety gear, etc.), coaching, and proven organizational expertise. The YMCA provides membership management for youths and adults, and offers rowing as a program under the YMCA umbrella, thus opening new, affordable access to the sport of rowing to thousands of existing YMCA patrons (middle-school through senior citizen) who could not previously afford to take on an additional membership, or make the time consuming trek to Langus Park. Relocating the rowing facility from Langus Park to the Lowell riverfront would enable easy access via the I-5 / 41st St interchange from not only the main YMCA (to be constructed at 47th and Colby), but also improve access to rowing for those coming from south Everett, Mill Creek, Bothell, Edmonds, and even Shoreline areas. The existing facility at Langus Park could be made available to Washington State University, Everett for development of a collegiate program. For an example of how well a partnership like this can work, please see tworiversymca.org under programs and activities. I believe in the great potential of this partnership to improve the quality of life in the greater Everett Community. If you would like to discuss this possibility with me I may be reached at rtstengel@comcast.net , or 425-512-8090. Robert Stengel.	3/13/2016 2:54 PM

159	FIX HOWARTH PARK! It's the reason we moved here! Since we have the swings were ripped out, the other play equipment is severely neglected and the trail to the beach has been out for 100% of the three years we've lived here. We literally moved to Everett because of the beauty of that trail! The bridges needing to be fixed could be done in a day with a couple of my buddies and a home depot trip, so what's the deal?	3/12/2016 10:40 PM

162	Overall I'd like to see more improvements in our existing parks and programs than I'd like to see new ones developed. Better paved walkways, better lighting, more local events, more publicly accesable arts such as sculptures, murals, etc. Id also love to see more support for bicycles in parks and in Everett as a whole. Paved trails make a world of difference,	3/12/2016 9:28 PM

165	I am concerned that the visual impression of Forest Park (especially around the fountain area) is looking very thin and scruffy. It is not inviting or inspiring for a person who is looking for a great park to relax in. Once you go into the park you see that it is a good one but people who have never been there would probably pass it by because of this scruffy, unkempt impression. Also the animal farm is so nice for the young ones and was a staple for our children as they grew up. It seems to be shrinking rapidly and has fewer animals to enjoy. I really miss the free roaming peacocks too. It feels like it went from a first class park to a grade B park. I think great wooded and diverse parks are very important to communities and am saddened by at the least the street impression of Forest Park around the fountain area. Sad lack of the dense trees that were there and not being replaced or even cleared out for several yrs now. Ex: the tree root ball still left from the Thanksgiving windstorm in the area by the firetruck display building.	3/12/2016 8:32 PM

173	Howarth Park in particular has been in poor shape. One of the foot bridges on the trail has been out for 3-4 years. The current repair of the bridge over the railroad traqcks is taking way longer than needed. You all act like Parks are a new idea to Everett, but I already pay high property taxes and those should be used to maintain and improve our existing Parks. It appears that the city does not use the property taxes we pay to take care of our parks. What do our property taxes get used for???	3/12/2016 5:23 PM

I LOVE Jetty Island, the pianos downtown, the music at the marina, Wetmore plaza and the courthouse plaza, the farmer's market, etc. I'm looking forward to seeing how the waterfront development will enrich our community. We enjoy the walkability of downtown and regularly walk to the Arena for Silvertips games, to the Village Theater, the Schack Art Center and to the Civic Auditorium.	3/12/2016 4:48 PM

178	I like the proposals that were mentioned some of the ideas are fantastic. I think it would be best to keep the costs low for Everett residents when it comes to events ect. because this town is one of the poor ones. If you keep the cost low more can afford to go and I believe it would better even out the results in the end for everyone. Please do not raise taxes I don't think that would help the project. In fact I believe that would slow the project down.	3/12/2016 3:50 PM

181	Parks/recreation are integral in a quality urban environment. I am so impressed with the overall quality found in British Columbia communities, large and small, and that level is one that Everett ought to aspire. This is so important. The amount of money spent on police/fire are so expensive and out of kilter with the needs of this community that it is time to consider downsizing these commitments and reallocate funds for Parks/recreation. I am very serious . There is a much greater benefit to be realized in life style/quality in Parks/recreation than in a siege mentality police/fire enterprise. Go Parks.	3/12/2016 2:49 PM

Also, as people have moved into the new apartment complexes, more dog walkers are allowing their dogs to urinate and defecate on the public walkway. Developers should be required to provide for pet owners a space for this.	3/12/2016 2:02 PM

Many of our parks are frequented and used by immigrants who may not be paying taxes to support the parks. Not sure the reason but it could be because they do not live in houses that have open space. With the high density growth, upgrades to the parks with facilities that pull families and friends together to enjoy the waterfront and open spaces is essential. Parks are only as good as they can be maintained. Thank you for taking this into consideration.	3/12/2016 10:14 AM

204	Yes. I am concerned about the Pigeon Creek beach - the now limited access and the fate of the beach itself. First the railroad closed access from our neighborhood, forcing people to park in the measly 3 or 4 spots or not use the trail at all. Now they are talking about changing its designation from "aquatic conservancy" to "deep water port". We have used this trail for years and love it. You can see a bit of everything on this trail - the workings of the port, eagles, seals, a wonderful sandy beach at low tide. Please work to restore the alternate access (so we don't have to drive in order to visit it) and don't let the change of designation happen.	3/12/2016 7:56 AM

220	Parks come with the responsibility to keep them safe and clean. Given how poorly Everett has managed to accomplish safe and clean within the city itself, I'm thinking that my hope for more safe and clean parks is a pipe-dream. Start working on the garbage that litters everyplace and the aggressive pan-handlers and thieves that prowl our neighborhoods first!	3/11/2016 8:02 PM
221	I would like to see the City add a public access to the beach at Harborview Park. If there is an easement required to access it through BNSF, then get it. The beach area at low tide at this location is vast. The gravel space that has been reclaimed just below the park could be used for parking. This could also become a very nice location for a view restaurant and a couple of shops looking out over the water without obstructing the view of residents above the park. With height restrictions and building only north of the gravel area (proposed parking) you would not block views from the park. I am not sure why this has not been built out already. It's a perfect spot for it. If the property around the gravel area is owned by BNSF, lease it and tax the tenants to pay for the lease. If it owned by the city, sell the building lots to pay for the easement, trestle, beach improvements and paving of the lot and access. This may require some creative rezoning, but I think it would be a great addition to Everett's land use.	3/11/2016 7:48 PM

229	Public safety is important to us. The US is experiencing problems such as Israel has, with acts of warfare being committed by individuals and small groups, in various public places. We have read of explosive devices being found in parks in Everett. One man's quick action was the result of knowing what an explosive device looked like, so his five year old was not killed or injured. From news reports, police handle dismantling these very well, and we are pleased with these valient efforts, in dangerous situations. In Renton a stranger walked through the doors of a church and assaulted a young girl in the church restroom. Perhaps classes could be offered for public safety awareness. Rape has always been used in war, and is currently in many locations. Public safety is a growing concern. We have yet to hear the rest of the Cheryl DeBoer tragedy in Mountlake Terrace, but it raised concerns about park safety, concerning sex offenders, gang activity, migrants both legal and illegal and the homeless. People are robbed, cars hijacked or stolen, even random assaults and killings. How does the public deal with the increase of these risks?	3/11/2016 6:02 PM

They do bring in revenue and are especially great for retirees who have the time to play. Also, there are wonderful green spaces for wildlife and the environment. You did not address growth impact fees on developers who build apartments and townhouses that are rentals. These people are usually the ones who use these facilities the most. Home owners of single family dwellings are usually at work to pay for their own home and have limited time on their hands. Builders/developers of multifamily and commercial building should also have a stake in the communities where they want to build in.	3/11/2016 5:20 PM

1	The recreation and community center proposed for W.E. Hall Park is critical to the surrounding under served community. All-weather, indoor recreation and sports opportunities will benefit youth and their families in an area where obesity is an issue. After school and out of school activities are also essential in an area with gang and crime activity cannot be reduced significantly through policing alone. This deserves the city's attention. This center is needed now.	3/24/2016 6:23 AM
2	Have larger/higher resolution images. Half of the questions referenced a map that wasn't in the least bit legible in terms of identifying specific locations. I found it rather ridiculous.	3/23/2016 9:28 PM

4	This survey (question structure) does not finesse ranking or prioritizing options very well; it is sort of all or nothing with each "ranking". It does cover important things, but not with much finesse.	3/23/2016 11:14 AM
5	As a new resident of North Everett, my only interaction with American Legion Memorial park is that it's closed and there isn't a lot of information as to why. This was a disappointment and I can't ascertain why it's closed on the website. I would simply like more resident information available about local park activity.	3/23/2016 1:07 AM
6	Why not put on fundraisers so that way people enjoy going to actives that are helping with the Parks and Recreation? Although I do not have children yet I have children that visit me every year and they love the Parks and Recreation actives Everett offers. I don't think you need 2 picnic benches and covered and none covered areas maybe just one area. Or if you feel this is very important start with just putting one thing in a year and save up for the next part of the project. The city needs to live within it's means and budget so only do what is only necessary and respect our environment don't over do it with to many new places to play. Only develop as you see the need fits. Not all new construction houses are getting filled in. Also looking around we have great profit and non-profit organization that do a lot for the community like small business owners such as myself, or the YMCA and Citrine woman health to name a few. All of these business could be of a bigger benefit the community if they patented with parks and rec. If we are about community then I think is only right to partner with all business willing to support this project and help the community. All will benefit in the long run.	3/22/2016 7:55 PM

16	#13 - I rated this low because diversity wasn't included as a parameter for the weighted scale. For instance, Nubian Jam might fall into this rating and because our population and business focus is primarily Caucasian and Hispanic this great diverse event might be dropped.	3/22/2016 8:21 AM

21	More help for South Everett is needed to make it a place that people will enjoy living. Right now, it feels like it's the place that everyone goes that can't afford to live elsewhere. Between high crime, the car repair / Walmart blight of Evergreen Way (not to mentioned people getting killed trying to cross the street seemingly every week), it's just not a very nice place to raise a family. Everett needs more community events that bring people together to create an identity. Don't rely on churches or YMCA's to provide Everett's sense of community. Madison - Morgan park - not sure if the donation allows the city to sell it, and use the funds for something useful. Right now the lack of budget for this park makes it useless. Thanks but no thanks.	3/21/2016 11:48 AM
22	I was asked by a vistor to everett while at harborview park , "how to get to the beach" last summer. I could not think of any, since howarth park bridge is closed and could not come up with an alternative. I told them they could go to mukilteo and pay. Everett is surrounded by water it is a shame we do not have public access to the beach.	3/21/2016 9:18 AM
23	I think the the Aquatics Center at Forest Park is a beautiful and unique natural setting that would be important to update. Swimming is a life skill, which is also a true recreational value to our society as well as something that can support a person at a young through to old age.	3/21/2016 2:33 AM

26	Would like to see an off lease dog park in the Walter E Hall Park. The area on the back side of the park would be ideal for a fenced in area for dogs to run in, as long as the parks department DOES NOT cut down any healthy trees back in that area.	3/20/2016 5:11 PM
27	The two parks nearest my house in the first map, Deer and Merrill Creek, shouldn't really count as parks. They have no name signs, no parking, and aren't even listed in the parks department web pages. Makes me wonder how many other "parks" listed on that map are tiny non-name places as well.	3/20/2016 4:40 PM
28	Yes, Burlington-Northern & the Port have terminated access to many public areas around Rucker Hill. 41	<p>New housing developers need to pay 100% for the suburban sprawl, traffic messes, and parks demand they create. Why would any sane person propose otherwise unless they're profiting from the kindness of longterm residences who already paid for the existing infrastructure? The entire Puget Sound region has challenges that need to be addressed, and it seems they are being worked in isolation and without coordination. PLEASE treat your recreational trails as valid commuter options, and CONNECT a network of trails so that non-drivers and kids can use public transportation safely. Public gardens don't have to be square plots of land -- engage gardening groups to line trails with beautiful plants. ADD MORE PEDESTRIAN OVERPASSES over I-5 and 99, and since each bridge needs a footprint, add simple things like playground equipment or basketball courts at those overpasses. Give kids a reason to get out of the house and safely negotiate our city. Partner with a nonprofit to organize a bike ride that goes past each major park in Everett to showcase your improvements year after year. Increase beachfront near downtown and add pedestrian trails from the Gardner Bay neighborhood, not Merrill Creek. Add community gardens close to downtown.</p>	3/18/2016 7:03 PM

I'm fully in favor of expanding availability for the developmentally disabled, however my family will not need that and therefore it ranks lower because of the way the question is worded.	3/16/2016 5:14 PM
60	I love Everett and it has many beautiful things to offer. I have noticed over the last couple of years that the maintaining of everything is not going so well. I have noticed overgrown landscape, unmaintained garden beds, and unremoved debris after windstorms. I appreciate the efforts to add new and more options but what about the upkeep of what we already have? My mother lives near Sullivan Park and would love o walk her dog on the trails across the street from the park but can't because of the homeless people lingering in the woods. I would prefer to stay with current parks, trails and such and be ale to maintain them than new and have a future upkeep issue. I know your task is not easy and I appreciate the efforts.	3/16/2016 3:56 PM
61	better beach access and finishing the loop around silver lake!!	3/16/2016 3:37 PM
62	Need more water access. We have a large waterfront and do not have the right type of access for it. Seattle has commerce along the waterfront but it fits into the community with the Public Market and all the restaurants/shops along Elliott Way. Everett does not have that. The public should have better access.	3/16/2016 3:34 PM
63	Hiking and bike paths should be a priority. As well as getting us access to the beaches.	3/16/2016 3:06 PM
64	How will parking be addressed for the proposed Merrill & Ring beach access? I have to drive on Mukilteo Blvd. frequently and just hate the traffic past Forest Park during "rush hour." 67	Taxation is a complicated issue that is hard to judge in a simple survey. I'd like to see (1) specific tax proposals and spending guidelines and (2) a taxation scheme that is as simple as possible (but no simpler) to make sure it stays transparent and accountable to the people that have to pay it and get the benefit of it. (So, for instance, I don't like the idea of the MPD.)	3/16/2016 12:38 PM
68	Please do not increase user fees on parks as this does not help lower income families an affordable way to enjoy the parks	3/16/2016 12:30 PM

70	Our family cannot wait for Howarth Park to reopen! We use that park year round and love the off leash dog beach and picturesque landscapes that surround! 73	Please provide access to our waterfront and beaches. With the Howarth bridge and stairs deemed unsafe and closed, we have very little access to beaches. Now that Mukilteo is charging for parking at their Lighthouse Park, Everett people are disadvantaged. The Edgewater Park is not a beach like that in front of Howarth or Harborview. It is illegal to cross the tracks at Harborview. We need beach access in our city--to nice beaches. Please, Please, Please make beach access a priority. Everyone loves the beach and not everyone can afford to travel long distances to access a saltwater beach. Thank you.	3/16/2016 10:54 AM
74	I would love to see the hiking and biking trails protected and maintained, especially the overgrown trail along Powder Mill Gulch, and the bike/walking lanes on Mukilteo Blvd, which are heavily used by cyclists and pedestrians but totally unprotected from vehicles.	3/16/2016 10:16 AM

Completing connections of existing trails for walkers, hikers and bicyclists is important, as is increasing waterfront access.	3/16/2016 8:09 AM
79	I really hope there is an increase of all parks, programs, and special events as a mother it is hard to find diverse programs for my child of his age and what's local and actual available for our schedule. 80	A separate tax authority is a terrible idea.	3/15/2016 10:14 PM
81	I don't do too well at big-picture thinking, but...I see making the natural beauty of our city available to everyone - individuals, groups, families - at areas that are safe and maintained - as the main mission of our great park system. To continue to enjoy the natural and social benefits of parks, citizens need to take responsibility by paying taxes and approving the occasional bond or levy . Without being able to provide specifics on how to do this, I ask that the city, in general, do its best to keep Everett an excellent, beautiful working-class city with character that lives within its working-class means.Commercially-driven growth and development and the enticement to go upscale is psychologically ugly to me. I really appreciate that the city thinks its parks are important enough to give citizens a say in how they are to continue.	3/15/2016 9:29 PM

88	Would love some trailside fitness/exercise stations (pull-up bars, sit-up benches, etc. - something like Parcourse) along jogging trails or routes. Either Forest Park or waterfront area trails would be preferable.	3/15/2016 2:17 PM
89	I would like to see increased security in public swimming areas where little kids are walking around in swimsuits. I caught a perv taking pictures of kids at Silver Lake last year and there was nothing that I could do about it.	3/15/2016 1:38 PM
90	Beach access is horrible! From city center the only beach is Pigeon Creek which is 1mi+ walk in past the mess of the Port. The city center needs better water access. Closing access from Bond street by the Port did not help. Priority should be given to developing open space access from Everett neighborhoods and the city center. This will provide the biggest impact to the city. Park access that requires car travel (i.e. Langus) is just not desirable or associated with Everett by the public, in my mind. Foot bridge access to Jetty would be great! While the ferry is fun, it is limiting, and inconvenient. The city should work to acquire the North Everett Asphalt property to provide year round access. Continuing the trail that connects the Everett waterfront to Howarth beach would also be great.	3/15/2016 1:19 PM
91	Not enough off leash dog parks.	3/15/2016 12:09 PM
92	I'm glad you are doing the survey. Feedback, even if it's not inline with mine, is always good.	3/15/2016 11:13 AM
93	I am in favor of the existing population continuing to support the existing parks & maintaince & create new parks. But I also believe that the developers of new homes should be responsible for a large piece of the creation of new spaces. @@@@ because of our unique location, Pacific Northwest, I think we should concentrate on forest areas & saltwater.	3/15/2016 10:15 AM
94	Plant more trees in our existing parks and along roadsides. Don't use harmful poisons that are killing the bees to kill weeds in our parks.	3/15/2016 9:48 AM
95	I would like to see the trail around the outskirts of Everett completed and connected to Lowell river trail, so I don't have to use roadway to walk along the river/waterfront. It would be nice to have a pedestrian bridge near or even under I-5 to cross the river over to Langus Riverfront Park.	3/15/2016 8:44 AM

99	Our family has been taking people who live in the Mid-West to Seattle's Golden Garden waterfront park. Why with all of Everett' waterfront Everett taxpayers take our income to spend in Seattle? Where do RV'ers friends park & spend & make us drive to, but in Marysville. After Boeing tour a stop at Fred Meyers in So. EV. to get supplies. Then it's as quickly as they get on I-5. Everett's I-5 is known thought out the U.S. as a parking lot. Trucker's, RV seniors see nothing to EXIT.	3/14/2016 8:24 PM
100	If the parks are able to be cleaned and monitored for suspicious activity I think this proposals are a great addition to Everett.	3/14/2016 8:20 PM
101	I don't like the idea of special taxing districts. It's important to a healthy city, so let's make it a basic part of what we do. I see a vibrant parks and recreation department as attracting more people to live in Everett, and what we have right now in terms of programming is not enough for the folks we have already. I feel existing physical facilities are actually pretty adequate, with some needed updates and expansions here and there. I like how you filled the gaps for playgrounds, too. And the more waterfront access the better -- it's part of what makes Everett great (Sound and River).	3/14/2016 7:46 PM
102	I appreciate that you are asking for our perspective on how to fund future activity. While I am completely in favor of providing more than adequate funding to the parks, I feel strongly that the reason there are not adequate funds is because our local government does not spend its funds responsibly. It is hard for me to be in favor of increasing the cost burden on the individual community members before government spending is made to be responsible. Any addition cost passed onto the community members is really just another tax on the community. It's not right to leave things like the parks without adequate funding while other, less mutually beneficial projects are funded.	3/14/2016 7:33 PM

I live here so of course this is very personal to me, but I used to live over a mile from Greenlake and I would still enjoy walking around a nice solid trail on the lake as many other from surrounding areas did as well.	3/14/2016 6:45 PM
105	Everett is an ocean town but I don't feel it. Nobody comes to Everett for water activities. What a shame. I'd say open the ocean for kayak, canoe, etc. Set aside 3 or 5 acres of water front for those activities. Think how we can attract tourists. Use the tourist money to re-vitalize downtown.	3/14/2016 6:23 PM
106	Having safe places to walk and bike are our top priority along with waterfront access. Sure would be great if we could have beach access at Harborview Park as well as to reestablish beach access at Howarth Park. Looking forward to proposed trail enhancements and extensions.	3/14/2016 6:01 PM

107	We LOVE the pool. Please only remodel in 5 years or so. Don't turn it into an expensive pool like Lynnwood and Snohomish. It will be too expensive to use then. Keep the focus on lessons and fitness. We can drive to those other pools if we want slides, etc.	3/14/2016 5:37 PM

114	I support efforts to reduce and eliminate pesticide use in parks, including capital improvements to reduce the amount of pesticides the parks department uses for aesthetic purposes. New parks should be built and designed with Integrated Pest Management (IPM) procedures in mind.	3/14/2016 1:33 PM
115	The Parks and Recreation programs can not even maintain the parks they have today. There already is talk of closing down one of the two golf courses. Forest Park has lost millions and millions of dollars due to poor management over the years. Silver Lake is prime for charging a entry fee for every car load similar to fees charged for access to parks in Oregon. Jetty Island is another but there is a parking fee there. Spencer Island used to be a prime place for walking and jogging but after the fire caused by lighting years and years ago the dyke was never repaired and the trail wasn't maintained. The trail along Lowell River has garbage stacked along the bank. The bike turn lanes on Beverly are dangerous. Pigeon Creek and Merrill Creek have homeless encampments. Drugs are bought and sold at Clark Park and addicts sleep on the benches and grounds. City spent hundreds of thousands on Solar Compacting garbage containers, do they really need so many at the Legion Park Bluff Parking area? And you want more of my money in taxes!	3/14/2016 1:27 PM
116	I'd like to see more frugal use of taxpayer funds. Necessary additional funds should come from those who use those facilities.	3/14/2016 1:00 PM
117	I would honestly need to read on the subject more before making a final decision as to where the money should come from or from who it should come from. How much etc... I enjoy taking my children to the parks here in Everett, I have enjoyed taking them to the beach and this has not been easy to do in the last few years with there being very little access. I feel that parks and outdoor recreational activities are important to family and environment.	3/14/2016 12:47 PM

See EVCC they have cut back on some of their PE classes for the community BECAUSE they are not attended. Like big government, you may think that if you build it they will come. Not true. Put in merry go rounds, swings and teeter totters.	3/14/2016 9:14 AM
124	Love the aquatic center idea at Walter hall..., closing Howarth park for the summer was very upsetting. Put money into safety above lavish. Hanging baskets, the Blvd planting, annuals plantings at entrance ways are not important to me. As long as the parks are well pruned, clean, safe walks and restrooms monitored for bad behavior I am happy. All the fussy high maintenance stuff feels wasteful..., and in my opinion does not enhance the purpose of a park., which is to get people outside to enjoy nature and each other.	3/14/2016 12:16 AM

What a friggen waste. That would be a good spot for a community garden. I want a couple of wind power generating tower placed in the middle of Silver Lake. There is an off shore breeze that blows to the south in the summer. I want solar panels placed on all city buildings vs. any new spending on parks. I don't want a new swimming pool at this park. We have a county swimming pool nearby. We need a god damn new County Court house. We do not need two bus companies in this city, merge them into CT. We need to war game the future when gasoline is too expensive for people to fly Boeing airplanes and we have riots by starving people. We need to start a city logging company to harvest timber and/or make a deal with find a contractor. We need to work with homeowners with this project to plant trees with the goal of harvesting the timber as they grow bigger. We need more trees planted along I-5. We need to thin and harvest tree within the forest north of the SE 112 park and ride. 132	Girl Scouts is a great non profit organization to support and could greatly help maintain parks. Girl Scouts is heavily centered around community service and environmental conservation, so if you advertise to Girl Scouts that you want to work with them, that would be a great opportunity for them to learn how to take care of nature and the community. Depending on the age group of the Girl Scout troop, they could possibly help with litter pick up, weeding and watering gardens, or just SCOUT the park out and report on the general condition of it and things that need professional repair. Also as I said before in the previous comment, please add more flowers that support native bees in more parks and in more abundance! Bees are very crucial to our environment and their numbers have been decreasing dramatically in the last few years.	3/13/2016 7:15 PM

136	Develop the land around Silver Lake with a proper community center that can be used year-round. I would really like to see the south end of Everett have access to the same recreational options as the north end of the city. Indoor swimming pool, tennis courts, meeting rooms, art classes and theater.	3/13/2016 6:27 PM
137	Our first City Park (Clark Park) is in need of special attention. It is a bad situation that the gazebo is fenced in and there are many issues with homeless people planting themselves around the park day and night at times. It has gotten better the last couple months, but perhaps bringing in a bigger playground, water feature for neighborhood children and more lighting so people feel safe while visiting would make this a more family friendly place to visit.	3/13/2016 6:25 PM
138	I hope that replacing the trees in Legion Park due to the asbestos treatment will be a component of the parks plan. Clark Park has lost or had damage to several significant old trees as well.	3/13/2016 6:15 PM
139	Why are you spending so much money on the brand new Phil Johnson ball park???? There is so much else that needs the money. What happened to developing the lot of land east of there by Glenwood Ave. that CEMEX donated to the city for a park? Why are you spending money on baseball rather than making this other area into a decent park - add in some soccer fields. Not everyone loves or even likes baseball. Cater to some of us non-baseball folks who simply enjoy being outdoors and like to be able to have a picnic where we can watch the sunset or the water.	3/13/2016 6:06 PM
140	I haven't lived back in Everett to have a strong opinion or comments on what to do about new and existing parks. All the ideas and plans look like wonderful additions to Everett though I think Everett needs to focus time, money and efforts on other issues.	3/13/2016 6:05 PM

153	The plan in the survey does not include the potential Community Activity Center in the north, approximately 19th and Broadway, that's in the City's Comp plan. This center is essential to serve the northland residents, students and hospital visitors because the move of the YMCA leaves a void. The new location of the YMCA is just far enough away and with increased traffic & population it is less accessible. That said, there should be two YMCA centers in the Everett given the coming increase in population growth. The Riverside neighborhood in the north end is lacking in trails. All of the sidewalks make it a very walkable area and the addition of green space trails would be very nice.	3/13/2016 8:40 AM

Everett PROS Plan Evaluation Survey

168	The questions about use, #19 and 20, specified "that your household members would use." As I live alone, that limited my answers considerably, even though I have opinions on where your focus (for programs) should be. Some of this is also dependent on what the Everett schools do/do not do, and the survey doesn't tell me this. My emphasis would be on teens (since there is plenty of info supporting that they stay out of trouble with programs/things to do), seniors (I don't know about your senior centers here), and developmentally disabled (all types), which would be the only ones I'd rate "highest." For #20, after school care is critical, but I don't know what the need is here (not enough info). Senior programs is dependent on what your senior centers offer. A strong senior center is important, such as what's in Shoreline/Lake Forest Park.	3/12/2016 6:36 PM
169	You should monitor park use to see which parks need expanding and improved and which parks should be shut down. I would like to see more hiking trails in natural areas within Everett	3/12/2016 5:23 PM
170	Thanks so the opportunity to respond.	3/12/2016 5:12 PM
171	I love the idea of a foot bridge to the waterfront. I've noticed that the small parks barely get used, while the bigger ones (Legion, Forest, Walter Hall, Kasch, Jetty Island) get full. Could we expand access to Jetty Island year round?	3/12/2016 4:48 PM
172	We do need more programs for children during summer break that low income families can afford. Another concern is safety at the parks. At Jackson Park we have had a problem with homeless and drug use with all that comes with it. If possible, perhaps Everett could hire security during the day and early evening. Many people in this neighborhood send their children off without supervision. Yes it is sad to think we need security at parks but this may also stop vandals. Keeping the parks clean and safe.	3/12/2016 4:44 PM

176	I like off-leash dog parks. There are only 3 I know of in Everett, 1 is worthless, 1 is usually muddy, and the third was not available last time I was there. (bridge replacement, hope its done but haven't checked) More public access to beaches especially for dogs is my #1. (Dogs can't swim on a leash)	3/12/2016 3:58 PM
177	I think sending this survey to local churches and organizations would help a lot to get extra input and help to better support and launch the project. Lots of people living in Everett have kids so I think they would be excited to know about the changes that can happen in their community. No offense, but I am one of the very few who actually read all the mail they receive in their mail box. Most people just toss it. That is why I feel it is better to out reach to bigger communities to help spread the word to get others involved.	3/12/2016 3:50 PM

188	Access to waterfront has long been lacking. What we have is a lot of places to look at the water, but not actually touch it. How about some easily accessible small boat launches(kayaks, canoes) and beaches to actually put your feet into the water. The beach along marine view drive north of 10 th street boat launch is a tremendously underused beach due to lack of access. Can the city and port not co-develop this great place? Also, there should be a charge to out-of-city residents who use the jetty island boat.	3/12/2016 2:02 PM

So much of this survey assumes familiarity with funding details not generally known by the typical citizen, so felt overwhelming and making guesses. Do not feel my responses are entirely accurate, on funding issues with limited knowledge of the options. I answered the services questions based on our own household, but grandchildren would greatly benefit for some the services I did not endorse due to the instruction to answer only for our household. This survey was frustrating to complete, but hope you got some useable data anyway.	3/12/2016 10:38 AM
200	The city is considering divesting itself of its two golf courses, Walter Hall and Legion due to cost of operation. Of course it costs money to operate the golf courses - just like any other government service. And the citizens are entitled to the services government provides; including our two golf courses. And who expects government to operate at a profit anyway? That's not the purpose of government or the services it provides.	3/12/2016 10:32 AM

221	Park amenities themselves are great. Looking at the map above I think more are needed in the south end and sound be paid for by developer fees since that's where all of the growth in the city is. My only complaint with the parks is found in fellow users who drive their children to the park in then stay in their vehicle glued to their smartphones while their young children run around unsupervised and the occasional homeless person sleeping on the benches.	3/11/2016 7:09 PM

226	At the most recent Park Board workshop, I asked about the concept of a picnic shelter at the Drew Neilsen Park. I was told this was not something that was on the table but your question 10 mentioned group shelters and the Drew Neilsen Park is one of the parks considered. As I said at the meeting, it is a very small park and it is close to the Providence Hospital where many undesirable people are released into our neighborhood. We do not need a covered area where these folks can "hang out". Picnic tables are fine and needed but additional covered areas are NOT needed.	3/11/2016 6:43 PM

232	Please see my comments in #30. I believe that the community as a whole (commercial, private property owners, renters, etc.) should have a stake in the community that they live in, regardless of how long they live there. Usually people move to a place that is inviting, well taken care of, and has amenities that they would like to use. Watch the Home and Garden TV channel (HGTV). You see it all day long. Therefore, ALL people should have a stake in this, NOT just the developers of new 'single family homeowners'. Besides, how many NEW single family dwellings will be built in the next few years?? Is there that much undeveloped properties left in Everett for single homes? It seems rather backwards to me. I know that property owners usually do most of the voting, while renters use most of the benefits, however, I believe rents (commercial/individual) should include some type of fee payable to the City/County for use of these facilities. Entrance fees for use of swimming/gym facilities are good, but better would be the combining of the YMCA or similar with the City/County facilities as there would not be any start up costs, new building costs, etc. The Y or other existing pool/gym would get tax breaks, and the city/county would get the benefit of the use of their wonderful facilities. It would make sense to use existing facilities/parks/golf courses/private/public to facilitate what you are trying to create, without recreating 'the wheel'. The new trails are a great idea, however, if it is difficult to maintain what you already have, why are you wanting to build more? Also the same can be said for the proposed new gardens. Why build them if it costs so much to maintain them? Our home backs up to Walter Hall Golf Course, and we are amazed how well maintained the course is, the lawns are well manicured, weeds non existent, trees trimmed, etc., but gardens required constant upkeep too with new flowers, shrubs, weeding, garbage control, and keeping vandalism to a minimum. I think more sports arenas, i.e. soccer, baseball, football and skateboard fields are necessary for kids too. Again, use the elementary/highschool fields in the summer for that. In other words, use what is already available and rethink your proposals. Thank you.	3/11/2016 5:20 PM

For example, the fees charged to go for a hike with EPR doesn't allow for connection with nature for our most under-served populations. Hiking in the Pacific Northwest is one activity that is nearly free for families that know how to access the outdoors. It'd be great if EPR offered short (free) courses to people to educate how to access hiking areas and skills/knowledge necessary to hike safe.	3/11/2016 3:52 PM
