Item 1: Comprehensive Plan Parks Element and Parks Impact Fees – Briefing

As part of the 2021 annual amendments to the comprehensive plan (annual docket), the city proposes amendments to the parks and capital facilities elements. Amendments include revised goals and policies for parks, recreation, and open space, a revised list of planned park capital facilities, and a revised financing plan.

To support the revised park, recreation, and open space goals, policies, and capital facility projects, the city proposes to implement a park impact fee on residential and commercial development, which will finance, in part, the capital facilities needed to serve that development.
