DETAILED SUMMARY STATEMENT:

The purpose of the project is to fulfill an agreement between the City and Sound Transit to replace the 80 parking spaces, repurposed to build the SWIFT Bus Rapid Transit terminal in 2009. The project will also include storage for up to 20 bicycles. On November 28, 2017 Council approved a \$750,000 grant from the Washington State Department of Transportation Grant for the design and construction of the Everett Station Parking Expansion.

Plans and specifications have been prepared by Perteet, Inc. to satisfaction of Everett Transit. The engineer's estimate for construction is \$1,500,000. The engineer's estimate includes all costs associated with the construction of the parking expansion and excludes sales tax. The bid opening is scheduled at 2:00 PM on August 12, 2019.

The Everett Station Parking Expansion includes an asphalt parking lot, a repurposed existing ecology block retaining wall, underground storm water detention system, clean fill dirt, cement concrete curb and gutter, landscaping, irrigation system, chain link fence, bike storage racks, and parking lot lighting.

A Funding Ordinance will be prepared after bids are received.

RECOMMENDATION (Exact action requested of Council):

Authorize the Call for Bids for the Everett Station Parking Expansion.
