MLK DAY WORK PARTY at Forgotten Creek

Saturday, January 17 10am-noon

We will be removing ivy from another section of the Forgotten Creek watershed in preparation for planting native shrubs and trees later in the year. No experience is necessary and all tools are supplied. Bring your own work gloves or use ours. If you plan to come, meet at the north (lower) entrance to Forgotten Creek downhill from the intersection of Kromer Ave. and Bond St. As always, we hope for decent weather this time of year, but plan realistically. If the forecasted high temperature for January 17 is 35 degrees or colder, we will postpone the work party.
