Feb. 9, 2017

## **SEPA review of supportive housing project continues**

EVERETT – The land use application for the [Everett Safe Streets Supportive Housing project](#), including the documents addressing the [State Environmental Policy Act \(SEPA\)](#), is currently under review by City Planning staff. The formal Notice of Application and SEPA comment period notice are expected to be issued within approximately 30 to 45 days, pending any need for additional staff review time.

In addition, a Comprehensive Plan Amendment to the Capital Facilities Element acknowledging the grant awarded to the City by Snohomish County on April 27, 2016 for a homeless housing project in Everett is under review by the [Planning Commission](#). The amendment will subsequently be forwarded to Council for action. The Comprehensive Plan Amendment is not a land use approval related to this project.

Learn more about the [Community Streets Initiative](#) or the [Everett Safe Streets Plan](#).
