

Everett Noise Administrator's Office

May 31, 2018

Interwest Construction Company
Izaak Fox
609 North Hill Blvd.
Burlington, WA 98233

Mr. Fox,

Your May 29, 2018 request for a temporary noise variance has been granted. This is to allow roadway excavation on West Marine View Drive as part of the Grand Avenue pedestrian overpass project. Normal weekday construction hours are 7 am – 10 pm, 8 am – 6 pm on weekends and holidays.

This variance will cover work near 1620 West Marine View Drive during the construction window of June 11 – July 13, 2018. The variance allows construction work to begin at 6 AM on weekdays only.

The City requires the following mitigation efforts by Interwest:

- Saw cutting, vacuum excavation and similarly loud activities are not allowed before 7 AM.
- No construction work will be allowed on weekends or state-recognized holidays
- Vehicles must be outfitted with broadband or ambient-sensing backup alarms
- Per Everett Municipal Code 20.08, the City of Everett requires notification of affected residences. In this case, that is all occupied residential units on Grand Avenue between 15th and 17th Streets. Notification can be by mail or delivery.
- A copy of this variance should be on-site during the work period.

Sincerely,

Megan Munro
Noise Control Administrator
