www.whirlwindservices.com
6801 216TH St SW
Mountlake Terrace, WA 98043

A Note on Working with Drainage System Maintenance Contractors

Before hiring a contractor, you may want to obtain several bids. Most firms have substantial callout fees and depending on the size of your system, having your entire system cleaned may not cost much more than having only one or two structures cleaned. If you are looking for a contractor in response to an inspection by a City inspector, give the contractor a copy of the inspection report. The information it contains will save time and make it easier for the contractor to prepare an accurate estimate. Let contractors know they can contact Everett's stormwater staff directly with questions or technical problems (425) 257-8800.
