American Society of Testing & Materials (ASTM)  
\*Approved for Food/Yard Waste municipal collection program.

# FOOD SCRAP COLLECTION MADE EASY

Compostable Bag

No Glass, Metal or Plastic. No Plastic Bags or Produce Stickers.

## Indoor Container Tips:

**Empty it:** Empty your indoor compost container daily or every other day.

**Chill it:** Refrigerate or freeze food scraps until your collection day, especially meat and fish scraps.

**Clean it:** Rinse off any visible stuck-on food after emptying. Clean your container with dish soap once a week. Sprinkle in baking soda to absorb odors.

**Line it:** Place a small amount of shredded paper, newspaper, paper towels on the bottom of container, to absorb moisture. Use a paper bag or Compostable Bag to line your container.

## Beyond the Curb Recycling

Plastic Bag & Film Recycling
