

GANG AWARENESS PARENT REFERENCE GUIDE

The following is a quick reference guide for parents to provide clues and common warning signs that their child might be involved in a gang. The information is not all-encompassing but provides many of the most predominant clues.

Parents need to be alert and involved in their child's daily activities. They also need to look for multiple signs indicating possible gang involvement. Indicators taken alone, such as clothes or musical preferences, are common youth trends and do not indicate gang involvement. Learn the basics about your local gang culture and seek help early on. Consider contacting school personnel, local law enforcement, faith leaders and community organizations for additional assistance.
