## Mayor Stephanson's statement in response to immigration ban

EVERETT – Everett Mayor Ray Stephanson issued the following statement in response to President Trump's executive order:

“President Trump's immigration ban is inconsistent with our values as a country and as a community. We cannot close our doors to the most vulnerable among us, including those who have been persecuted for their faith. Everett will continue to be a welcoming, safe city for all of our residents, no matter their country of origin.”
